

GUEST LECTURE

When Correcting Reflux Is Not Enough: From Molecules to Management in Venous Leg Ulceration

Dr Matthew Tan, MBBS BSc(Hons) MRCS AFHEA

Imperial College Healthcare NHS Trust

LECTURE

LOCATION

Open Space 1C2

DATE

30 September 2026

TIME

4:00 PM

ABOUT THE LECTURE

Join Dr Matthew Tan of Imperial College Healthcare NHS Trust for an insightful exploration of the molecular mechanisms underlying venous leg ulceration and why correcting reflux alone may not be enough.

Discover how emerging scientific insights can inform more effective and patient-centred approaches to venous leg ulcer management.
